For the royal heritage enthusiast

HRH The Duke of Kent – A Life of Service

At the time of his 80th birthday in October 2015, His Royal Highness Prince Edward The Duke of Kent remained one of the busiest members of the royal family, dedicating a large proportion of his time and efforts to good causes.

Chapter 12 of this volume deals with the Duke's involvement with the RNLI* having become the charity's President in March 1969.

It documents his attendance at various RNLI ceremonies and visits to lifeboat stations, and also contains the author's own perspective on the scope and history of our lifesaving work.

Exhaustively thorough, diligently researched, and a top choice for any royal history buff.
